Communications Report AGM March 2021

I was appointed to this role in April 2020 after the resignation of Maciej Slugocki.

The Website

The website has been kept up to date during the year. Significant changes in content were necessary due the cancellation of most mainland events and then rescheduling of the Tasmanian events (due to Covid-19). I will contact all clubs in the near future to ensure that the information on the club pages is still up to date. The Hobart Dolphins Club is now using their area of the website to hold club specific information. This facility is open to any other club if they so wish. Suggestions on content to be included on the website will always bwe appreciated.

Platypus Press

Four editions of Platypus Press have been circulated, one after each championship. We have tried to keep to a two page format. Help in the content has been appreciated and will always be appreciated in the future. Your club news may very well be of interest to other clubs in the branch!

Mendelt Tillema,
Communications
